

FROM 05 TO 15 FEBRUARY 2018
INTERNATIONAL FAIR OF
NABEUL - TUNISIA

Registration form of African bee expo 2018

This first African edition of bee expo 2018 places a strong emphasis on the sharing of new technologies and know-how in beekeeping involving producers and industrialists whether they are manufacturing beekeeping technologies or bee processing. african bee expo will be the gateway to the globalization of apiculture in Africa and the opening towards the conquest of new markets.

In the medium term, **WAFT GROUP** aims to position **AFRICAN BEE EXPO**, the international beekeeping exhibition, as the star event of the continent, ensuring its sustainability and placing it in the annual agenda of the must-attend exhibitions for beekeeping professionals. Africa and the world.

Delegations will have the chance to share a B to B meeting.

Producers, equipment suppliers, beekeeper processing company materials manufacturer, import-export, beekeeping services company will be part of african bee expo. The involvement of public and private institutional actors has contributed to the launching of this project, thereby consolidating the positioning of the leading companies in the field of new technologies and the desire to enter into an entrepreneurial dynamic that is generating apicultural revolution.

**Exhibition objectives :*

- Position the show as a beekeeping platform for the continent and the world.
- Strengthen the exchange of knowledge and technology.
- Present innovative and structuring projects.
- Encourage business opportunities between producers and international companies.
- Schedule high level conferences.
- Present the latest innovations and promote solutions, products and services / workshops.
